## IntoThe Light Experience

### GUIDING PAWS ICT MISSION

To bring awareness to the community and support to the blind and low vision

### ABOUT INTO THE LIGHT:

Guiding Paws has developed this unique immersive experience, here in Wichita, and is now bringing it to schools, colleges, businesses, and community events.

A guide, leads visitors in small groups through different settings in a custom trailer, donated by our strategic partner Tactical Safety Solutions. Through this experience, visitors learn how to interact without sight, but, by using their other senses. Guests will discover how blind and low vision people use guide dogs and canes in their lives. They will also learn the alternatives that blind people use to accomplish the same tasks that you perform in your life.

People will see that disability does not mean lack of ability. The experience aims to change mindsets on disability and diversity, as well as increase inclusion for everyone.

### FOUNDER, ANDREW CRANE

Born blind and with Cerebral Palsy, Andrew's passion is to help blind and low vision individuals find the same independence and freedom he gained through working with a guide dog. He created the concept for our newest Awareness Adventure "Into The LIGHT," and is a local speaker.

### ADAPTIVE SPORTS FOR THE BLIND

We support 'Adaptive Sports' which plays a crucial role in enhancing the physical, emotional, and social well being of individuals with blindness. These sports include: Beep Baseball, Beep Kickball, Blind Archery, and Blind Soccer. To learn more visit: [mlvfoundation.org](http://mlvfoundation.org)

### HOW CAN YOU SUPPORT US?

- \*Host an Into The Light Event
- \*Donate Financially
- \*Host us at your Business, School or Church
